

To whom it may concern, about NAB's petition 04-160. The way I feel and most everybody I know, if I pay for XM or Sirius, i should be able to hear my local weather and traffic on it if I want to. To not let them play it, is against their 1st amendment rights, and is not fair to me or anyone who PAYS for their services. And that tells me that we all can kiss our 1st amendment rights good-bye. I feel that in AMERICA if I pay for a service like XM, I should be able to hear what ever I want to!!! I should be able to hear what ever I want on regular radio also. And if someone doesn't like what they hear, they can change the channel. Thats what I do!!!!!!!!!! Thank You!!!!
